Working with Smart Devices

This product can work alone without relying on routers and phones. However, in using a smart phone with our app installed, it allows you to switch your appliances on or off in an instant remotely, and change your power schedules on-the-go, ensuring that you don't have to worry about leaving something on while you're away. For detailed app functions, as this improves from time to time, please refer to the user guide inside the app.

Download the App

1. Download our app from the **a. AppStore (iPhone, iPad, or iPod touch); b. Google Play (Android) or c. download the app in – apk.yoswit.com**

2. Once the app is installed, launch the app and follow the on-screen instructions.

a. b.

Introduction

The Yoswit Smart Bulb Converter is a compact, and easy-to-use device that allows you to control your lighting through your smart devices without any installation of extra smart switches or devices.

1.	**Bulb Holder**	Connect your bulbs (holder type is E27).
2.	**Power Button / Reset Button**	- Short press the button to turn the connected device on or off. - Long press the button for 5s to reset the password - Long press the button for 20s to reset the device to factory default setup
3.	**Bulb Cap**	Connect the bulb holder into a lamp holder. There are 3 different bulb caps of your choice.
4.	**Cap Lock**	Press the button to release the safety lock when replacing the bulb cap.

Installation

1. Make sure the power is turned off.	**2.** Verify that your bulb are electrically rated to operate with the requirement as stated in the specification.
